

# HYDRACROP SERIES

ENGLISH (mm)

**GEKA**   
The steel working company

# HYDRACROP SERIES

Where production requires twin operator machines, higher speeds or greater capacity, GEKA provides the solution with the HYDRACROP range with five work stations:

- **Punching**
- **Flat bar shearing**
- **Section shearing**
- **∅ and ∇ shearing**
- **Notching**

5 HYDRACROP MODELS: 55/110, 80/150, 110/180, 165/300, 220/300

The first figure indicates metric tons on the punching end.

The second figure, metric tons on L-shearing end.

The Hydracrop family comes in five models with different capacities: There are two different versions of each model: S and SD.

## S VERSION

- Machines driven by two cylinders.
- 5 work stations, fitted with tools for L, shearing, bars ∅ and ∇, shearing, rectangular notching and punching.
- Quick change punch.
- Flat bar shearing table with adjustable guides.
- 2 simultaneous work stations.
- Ready for "Production Kit" comprising:
  - Precision punching table with x & y measuring stops.
  - Precision notching table with x & y measuring stops.
  - One metre "touch & cut" length stop with fine adjusting.
  - Lamp for enhanced vision of cutting zones.
  - 10 sets of round punches and dies.
- Greater speed backed by a powerful hydraulic unit.
- Special equipment for approaching at reduced pressure and slow speed.

## SD VERSION

- The same features as the S version, but with a deeper throat for larger plate and sheet metal applications.

# FEATURES

SHEARS FOR FLATBAR			55/110 S, SD	80/150 S, SD	110/180 S, SD	165/300 S, SD	220/300 S, SD
Flatbar (with slight deformation)	mm		300x15	450x15	600x15	750x20	750x20
	mm		200x20	300x20	400x20	400x30	400x30
Length of blade	mm		305	475	605	765	765
Square bar $\square$	mm		25	-	-	-	-
Working height	mm		880	850	960	870	870
Cut of an L leg at 45°	mm		60	80	100	120	120
SHEARS FOR SECTION IRON							
Shearing power	kN		1100	1500	1800	3000	3000
L at 90° without deformation	mm		120x120x10	130x130 x13	152x152x13	205x205x18	205 x205x18
L at 45° (2legs)	mm		70x70x7	70x70x7	70x70x7	70x70 x 7	70x70x7
WITH SPECIAL BLADE							
L at 90° (with slight deformation)	mm		130x130x13	152x152x13	160x160x16	205x205x25	205x205x25
SHEARS FOR BARS

# MODELS

## Hydracrop 55/110

### FEATURES

Shearing of flat plate	300 x 15 mm 200 x 20 mm
L cut with standard blade (no distortion):	120 x 120 x 10 mm
L cut with optional blade (minor distortion):	130 x 130 x 13 mm
Shearing of $\varnothing$ and $\nabla$ bars	40 mm
Punching capacity $\varnothing$	40 x 10 mm

## Hydracrop 80/150

### FEATURES

Shearing of flat plate	450 x 15 mm 300 x 20 mm
L cut with standard blade (no distortion):	130 x 130 x 13 mm
L cut with optional blade (minor distortion):	152 x 152 x 13 mm
Shearing of $\varnothing$ and $\nabla$ bars	45 mm
Punching capacity $\varnothing$	40 x 14 mm

## Hydracrop 110/180

### FEATURES

Shearing of flat plate	600 x 15 mm 400 x 20 mm
L cut with standard blade (no distortion):	152 x 152 x 13 mm
L cut with optional blade (minor distortion):	160 x 160 x 16 mm
Shearing of $\varnothing$ and $\nabla$ bars	50 mm
Punching capacity $\varnothing$	40 x 20 mm

## Hydracrop 165/300

### FEATURES

Shearing of flat plate	750 x 20 mm 400 x 30 mm
L cut with standard blade (no distortion):	205 x 205 x 18 mm
L cut with optional blade (minor distortion):	205 x 205 x 25 mm
Shearing of $\varnothing$ and $\nabla$ bars	60 mm
Punching capacity $\varnothing$	40 x 30 mm

## Hydracrop 220/300

### FEATURES

Shearing of flat plate	750 x 20 mm 400 x 30 mm
L cut with standard blade (no distortion):	205 x 205 x 18 mm
L cut with optional blade (minor distortion):	205 x 205 x 25 mm
Shearing of $\varnothing$ and $\nabla$ bars	60 mm
Punching capacity $\varnothing$	40 x 40 mm

## PRODUCTION PACK

To obtain maximum output, GEKA provides its customers with the Production kit at a symbolic price, which comprises:

"Touch & Cut" Electric Length Stop  
1 meter long

Set of 10 Round Punches and Dies

Work Light with Magnetic Base

## Notching Station

This station of the machine has been designed to mount several optional accessories, all of which are normally held in stock.

- Triangular notching at 90°.
- Punching equipment.
- Pipe notching equipment.
- RADIUSING of flat bar ends.
- RADIUSING corners.
- Notching of footings, etc. ng corners.

- 1.- Rectangular Punch
- 2.- Rectangular Stripper
- 3.- Rectangular notching lower blades
- 4.- Table with scaled measuring stops, included in Production Kit
- 5.- Cross centring Frame bolts
- 6.- Tapped holes for special tooling

1

## Shearing of flat bar

The excellent stability of the monoblock blade-holder, which is controlled at the each end, makes it possible to mount a long upper blade with a proven geometry to obtain optimum shearing quality. The radial system allows a generous cutting capacity as a result of the force multiplier effect.

- 1.- Upper blade with special geometry.
- 2.- Lower blade.
- 3.- Supplement shearing angle control of upper blade, for shearing without deformation.
- 4.- Guide fixing screw.
- 5.- Clearance control of blade-holder.
- 6.- Adjustable guides 45° right and left.
- 7.- Clearance control between shear blades.
- 8.- Flat plate/bar shearing table.
- 9.- Slotted guide positioning with coverage of the entire blade length.

2

## L cutting angle

Fully aware of the importance of distortion free shearing, GEKA has designed a patented system of a floating upper blade that travels along a rectilinear line and is able to shear angles without any deformation or loss of material (single cut); All GEKA Hydracrop models ensure the distortion problem caused by the conventional radial system is now a problem of the past.

- 1.- Safety protection.
- 2.- Upper shear blade guides.
- 3.- Lower shear blade guides.
- 4.- Upper shear blade without deformation.
- 5.- Blade gap adjustment screws.
- 6.- Adjustable Support.

3

## Cutting of Ø and ▧ bars

The GEKA HYDRACROP machines are fitted as standard with blades for cutting Ø and ▧ bars. Furthermore, this station has been designed bearing in mind the shearing of other sections such as LJ, I, T for which a large stock of blades is available.

- 1.- Adjusting bolt and height setting of the guide.
- 2.- Blade holding flanges.
- 3.- Guide fixing bolts.

4

## Punching station

Fitted with an independent cylinder creating a large, flexible, universal workstation easily adaptable for mounting special tools and "die sets".

- 1.- Cylinder support
- 2.- Split double acting cylinder.
- 3.- Limit switches for punch travel setting.
- 4.- Generous travel for bending, deep-drawing, forming jobs etc
- 5.- Adjustable generous non-turning guiding.
- 6.- Additional guiding for damping of offset forces and protection of hydraulic seals.
- 7.- Quick punch change.
- 8.- Adjustable material stripper.
- 9.- Table with millimetre scales, included in production kit.
- 10.- Adjustable measuring stop.
- 11.- Gooseneck die-holder for punching channel and section.
- 12.- Adjustable bolster locking device X axis.
- 13.- Adjustable bolster locking device Y axis.
- 14.- Fixing bolt at base of gooseneck.

5

## Electric cabinet

Manual selector switch / electrical limit switch.  
"Inching / Jogging" selector switch.  
Easily removable cover to access hydraulic unit.

6

# GEKA GROUP

## Quality Know-how Service

### World leader in punching and shearing solutions

With more than 80000 happy and satisfied customers worldwide and more than 90 years experience.

### Proven quality, design and craftsmanship

ISO 9001 and OHSAS certifications besides 90 years experience and a continuous benchmarking policy.

### Complete after sales service

Permanent stock and next day delivery of consumables, accessories and parts. After sales assistance by GEKA's qualified engineers.

### Great versatility

More than 50 different machine models and over 8000 different accessories. GEKA offers the highest range in accessories and optional equipment in the market.

### Produced & manufactured in the European Union

Conversely other manufacturers, GEKA is the only ironworker fully produced by Geka in the UE.

### Continuous innovation

New Bendicrop 85, C2PL, Alfa 500, Alfa 150, Gamma Traction, Sigma110...

### Worldwide distribution network

With more than 60 distributors and present in more than 85 countries in 5 continents.

### All GEKA machines are special order

Every new GEKA machine is one of a kind. Our designers develop solutions suited to your specific needs. We manufacture each GEKA in our own facilities according to precisely defined standards.
